

1 1-14

1.1 Discussion

Today's topic was about the PDS (Project Design Specification) we divided up the requirements. Each person is required to finish their portion by 1-17

1.2 Deliverables

- leo: A portion of the project management plan. Basically what is already on the git projects. Upload a finished libre project to the git.
- Jinghan: Will fill out the stakeholders field in the google doc
- Naiqi: Will fill out the concept of operations in the google doc
- Josh: will fill out the requirements in the google doc
