1 leo gitbombed

hard reset
push

next time tell

2 we are learning hithub

we are installing git
we need to get better at slack.
we are going over git basics. which is fine because everyone should learn this.
its just upsetting that they didnt try before.

basic steps to git

git pull upstream changes
make edits
git add edits
git commit -m "adding edits"
git push

teaching a new branch

3 todo

each person push a hello world to a git branch
